

EMR-validated column scale with eye-level display

seca
Precision for health

seca 787

- + Medical-grade, robust scale for years of use with high patient volume
- + Digital measuring rod with an extra long measuring range
- + Two-line display shows height and weight
- + Damping system and Auto-HOLD guarantee quick and precise weighing
- + Display swappable to left or right side
- + Optional: Handrail seca 477 provides extra patient security
- + Optional: Panda bear facilitates measuring and weighing of children
- + EMR validated: Send results directly into the EMR

seca 787

EMR-validated column scale with eye-level display

Advanced EMR-validated weighing technology

The seca 787 fully meets the demands of professional EMR (electronic medical record) integrated measuring and weighing. It boasts a tilt-proof full metal platform and a stable single piece column that is at eye-level and won't give way when operating the keypad. It is a quality every patient will notice, as soon they set foot on the platform. The scale is easy to move by staff due to the large rubber coated castors and a wide wheelbase.

Scale

Capacity	250 kg / 550 lbs
Graduation	100 g / 0,2 lbs
Dimensions (WxHxD)	41,0 x 135,6 x 57,6 cm / 16,1 x 53,4 x 22,7 inch
Platform (WxHxD)	35,0 x 5,9 x 41,8 cm / 13,8 x 2,3 x 16,5 inch
Measuring range	10 – 230 cm / 4 – 90 inch (digital measuring range 122 – 230 cm / 48 – 90 inch)
Weight	12,9 kg / 28,4 lbs
Power supply	Batteries, power adapter (optional)
Data transmission	LAN or Wi-Fi via interface module seca 452 (optional)
Functions	TARE, HOLD, Auto-HOLD, Damping (motion filter), kg/lbs switch-over lock, automatic BMI, auto-off
Electromagnetic radiation resistance	60601-1-2 compliant
Accessories	+ Handrail seca 477 + Panda seca 459 + Power adapter 401

Handrail seca 477 (optional)

Dimensions (WxHxD)	42,9 x 112,2 x 30,9 cm / 16,9 x 44,2 x 12,2 inch
Weight	4,0 kg / 8,8 lbs

Absolute sturdy construction

With its absolute sturdiness, the seca 787 gives patients (especially those affected by obesity) a greater sense of security when stepping on the platform. The digital measuring rod is firmly attached to the column and provides an extra long measuring range. A generous two-line display shows weight and height simultaneously and automatically calculates patients' BMI. The damping system and Auto-HOLD function enable quick and precise measurements.

seca integration solutions: How workflows can clearly be improved.

The seca 787 can be integrated into your information system via the network. At the push of a button, measured values can be sent directly to the EMR, where they are immediately available to all users. Extended with USB bar-code scanner (available from third-party vendor), both patient and user are identified and the measurement results are always correctly assigned. This saves time, increases process reliability and eliminates transmission errors.
